

A GUIDE TO DECODE P/N OF CABINETS

P/N contains information about product line of the cabinet, size, doors, color and equipment or its lack. Diagram below explains which parts of product P/N contains specific information.

Example of P/N:

NCB42-68-IFA-C-STD

1

Product line
and size in U

2

Width
and depth

3

Door type
and color

4

Flat
packs

5

Equipment

1 First part defines product line, what includes:

- NCB – standard standing cabinets
- NCE – economic standing cabinets
- NCI – quick assembly standing cabinets
- WCB – single section wall mounted cabinets
- WCC – dual section wall mounted cabinets

and size of the cabinets expressed in U (standard unit) as integer.

2 Second part defines external size of the cabinet – its width and depth, namely:

- First number (6 or 8) tells us width, it's respectively 600 and 800mm
- Second number tells us depth and it can have value 6, 8, 10, 12 in the case of standing cabinets or 6, 45 i 55 in the case of wall mounted cabinets. These numbers defines depth as 600, 800, 1000, 1200mm for standing cabinets and 600, 450 and 550mm for wall mounted cabinets.

3 Third part defines type of front and back doors and color of the cabinet

- First letter tells us front door type and second back door type. This includes:
 - A – solid steel doors
 - B – doors with glass
 - I – perforated steel doors
 - F – double swing perforated steel doors
 - K – convex perforated steel doors
 - L – perforated steel doors for NCI cabinets
- Third letter of this part defines color of the cabinet, where:
 - A – is for black (RAL9004)
 - B – is for grey (RAL7044)

4 Fourth part (letter C) means cabinet shipped in the form of flat packs, for self assembly.

This part stays unchanged for all the cabinets.

5 Last part stands for accesory.

- NA means no accesory
- STD means standard accesory pack

List of accessories vary on the exact model – please check specification on www.linkbasic.eu.

This guide includes information on standard models offered in Europe. Full list of possible options is much longer.
